WORK ETHICS OF GROUP 1

Abstract

This document is about the roles and the work ethics of Group 1.

Table of Contents

Group 1 Participants: 2

Roles and responsibilities: 2

Work Ethics 3

1. **Work Setting** 3
2. **Work Timing** 3
3. **Work Manner** 4
4. **Delinquency Indicators** 4

Project Timeline (Gantt Chart) 6

Image Description: 6

Group 1 Participants:

Nyengedzo Jonathan Cherane, 45683638, Group Leader/ Project Management

Marthinus von Holtzhausen, 45628467, Network Administrator

Tanyi Samuel Mthuli, 45672202, Network Architect

Neo Von Benecke 40898253, Network Security Analyst

Henko van Greunen, 50258796, Network Analyst

Nkululeko Martin Makhubo, 35180420, Lead Network Engineer

Phikela Shaun Zwane, 41042735, Network Engineer (Support)

Roles and responsibilities:

- **Group Leader/ Project Management:** is responsible for delegating the roles to the members, setting up meetings, and making sure the projects meet deadlines.
- **Network Administrator:** is responsible for maintaining, configuring, and ensuring the optimal operation of computer networks, including troubleshooting issues and implementing security measures.
- **Network Architect:** is responsible for designing, implementing, and managing data communication networks, ensuring they meet organizational/ project needs and security standards.
- **Network Analyst:** is responsible for designing, maintaining, monitoring, and securing an organization's computer networks to ensure optimal performance and reliability.
- **Network Security Analyst:** is responsible for protecting an organization's digital infrastructure by implementing security measures, monitoring network activity, and responding to security incidents.
- **Network Engineer:** is responsible for making sure that data flows smoothly and effectively within an organization. They configure routers, switches, and other networking devices, troubleshoot network issues that arise, and enhance overall performance.

Work Ethics

1. Work Setting

- **Designated Spaces**: Group work will primarily occur in agreed-upon settings such as campus study rooms, online collaboration platforms, or other designated meeting areas.
- **Flexibility**: Remote contributions are permitted, provided they are communicated clearly and delivered on time.
- **Presence**: Attendance at scheduled group sessions is strongly encouraged. Absences must be communicated in advance with valid reasons.
- **Environment:** Members are expected to maintain a professional and focused atmosphere during group sessions, minimizing distractions and respecting the collective effort.

2. Work Timing

- **Deadlines**: All tasks must be completed by the agreed deadline. Late submissions undermine group progress and will be considered delinquent unless justified.
- **Consistency**: Contributions should be spread evenly across the project timeline. Sporadic bursts of effort at the last minute are discouraged.
- **Communication**: If delays are unavoidable, members must notify the group leader at least 24 hours in advance. Silence or failure to communicate will be treated as negligence.
- **Punctuality**: Meetings will begin promptly at the scheduled time. Members arriving late without prior notice disrupt workflow and may be recorded as delinquent.

3. Work Manner

- **Quality Standards**: Contributions must be thorough, accurate, and aligned with group standards. Proper referencing, clear formatting, and attention to detail are mandatory.
- **Collaboration**: Members are expected to engage respectfully, share ideas openly, and support one another. Constructive criticism is encouraged, but disrespectful behaviour is unacceptable.
- **Initiative**: Proactive problem-solving and volunteering for tasks are valued. Members should not wait passively for assignments but actively seek ways to contribute.
- **Integrity**: Plagiarism, dishonesty, or misrepresentation of work will not be tolerated. Each member must uphold academic and ethical standards.

4. Delinquency Indicators

A member may be considered delinquent if they:

1. Consistently miss deadlines without valid reasons.
2. Fail to attend meetings or contribute meaningfully during discussions.
3. Submit incomplete, careless, or plagiarized work.
4. Ignore group communications (messages, emails, meeting notes).
5. Rely excessively on others to carry their share of responsibility.
6. Display repeated lack of initiative or engagement.

Delinquency is not defined by a single mistake but by a pattern of neglect, lack of accountability, or disregard for group standards.

5. Accountability & Resolution

- **First Instance**: A reminder will be issued, allowing the member to correct their behaviour.
- **Repeated Instances**: Tasks may be redistributed, and the member may lose privileges such as leadership opportunities or credit for specific sections.
- **Final Step**: If delinquency persists, the matter will be escalated to academic or organizational authorities, and the member may be excluded from group credit.

Accountability is not punitive but corrective. The goal is to encourage improvement while protecting the group's collective success.

6. Group Values

- **Respect:** Every member's time, effort, and ideas are valued.
- **Transparency**: Communication must be open and honest.
- **Equity**: Work distribution should be fair, with adjustments made for individual strengths and availability.
- **Commitment**: Each member is expected to prioritize group responsibilities alongside personal obligations.

Project Timeline (Gantt Chart)

Phase 1 - Individual Preparation	2026/03/02	2026/03/10
Complete Online Courses	2026/03/02	2026/03/06
Write Reflection Courses	2026/03/09	2026/03/10
Phase 1 Submission	2026/03/11	2026/03/11
Phase 2 - Work Ethics	2026/03/02	2026/03/13
Group Meeting	2026/03/02	2026/03/02
Assign Roles	2026/03/03	2026/03/03
Write Work Ethics Document	2026/03/04	2026/03/06
Create Project Timeline	2026/03/09	2026/03/13
Phase 2 Submission	2026/03/16	2026/03/16
Phase 3 - Documenation ...	2026/03/16	2026/04/13
Research Inroduction	2026/03/16	2026/03/18
Write Inroduction	2026/03/19	2026/03/20
Edit Inroduction	2026/03/23	2026/03/23
Introduction Deadline	2026/03/24	2026/03/24
Research Network designs	2026/03/24	2026/03/27
Write Literature Review	2026/03/30	2026/04/01
Edit Literature Review	2026/04/02	2026/04/02
Literature Review Deadline	2026/04/03	2026/04/03
Research Hardware and Budget	2026/04/03	2026/04/07
Write Methodology	2026/04/08	2026/04/09
Edit Methodology	2026/04/10	2026/04/10
Methodology Deadline	2026/04/13	2026/04/13
Phase 4 - Network Desig...	2026/04/14	2026/05/05
Analyse Building Requirements	2026/04/14	2026/04/16
Design Network Topology	2026/04/17	2026/04/22
Implement Network in Packet Tracer	2026/04/23	2026/04/28
Testing and Troubleshooting	2026/04/29	2026/04/29
Compile Report	2026/04/30	2026/04/30
Final Editing	2026/05/01	2026/05/01
Prepare Presentation	2026/05/04	2026/05/04
Final submission	2026/05/05	2026/05/05
Project Demo	2026/05/05	2026/05/05

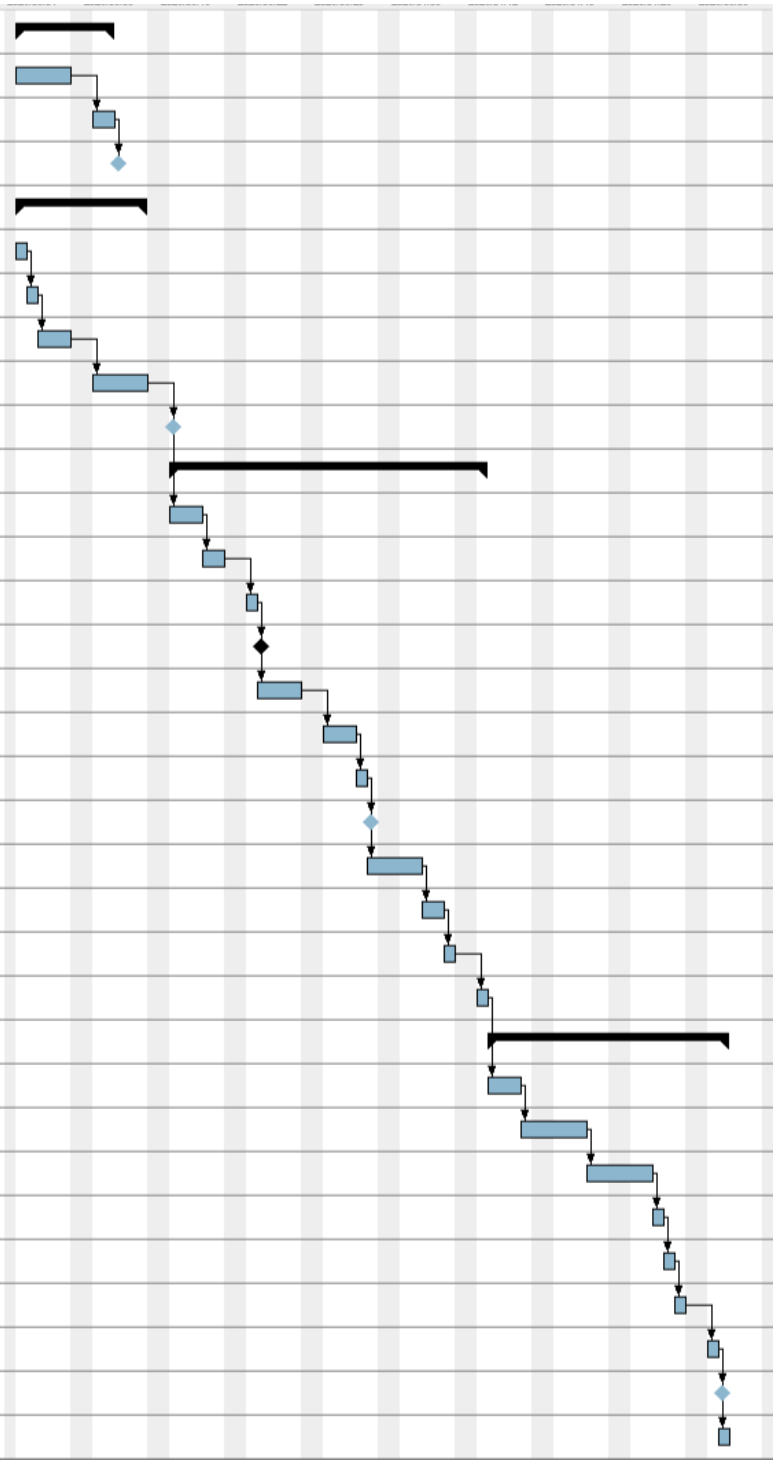

Image Description:

The project timeline was developed using a Gantt chart to illustrate the sequence of tasks and milestones for the whole project. The chart outlines the main phases: individual preparation, development of work ethics, documentation and research, and network design and implementation. Task dependencies ensure that activities occur in

the correct order, while the milestones represent key project deadlines such as phase submissions and the final project demonstration.
